

## Drop Off Procedures

Student safety is a #1 priority at Carson Middle School. We need support with following traffic procedures during morning drop-off and afternoon pickup. Please see the attached traffic flow map and expectations below:

- All students should be dropped off in back of the school either across from the basketball court or by the courtyard. Please do not drop students off at the side of the building as that will no longer be used as an entrance in the morning. Please enter the parking lot through the entrance on Harr Ave. to the south side of the school.
- In the front of the school, there are several yellow poles directing traffic in the correct traffic flow pattern. Please do not enter the school property through the exit lane. Many parents are doing this in the morning, especially when dropping students off late.
- Please be conscientious about blocking the handicap parking spaces in the front parking lot. We have families dropping off students with special needs, and blocking these spots impedes their ability to bring their students to school on time or to depart after drop off.
- When dropping students off in back of the school, please pull into the left lane to drop off, and utilize the right lane as a continuous exit lane. Please do not pull onto the basketball courts or patio to drop students off.
