

I am pleased to share with you programming from one of Northrop Grumman Foundation's partners, the National Society of Black Engineers (NSBE). We are thrilled to partner with NSBE on their Summer Engineering Experience for Kids Program (SEEK). ***This year, programming will focus on coding, drones and robotics!*** Please share with those who may be interested in attending or who would be able to share with others.

**About NSBE SEEK:** The SEEK program is designed to be a fun and engaging educational experience, led by NSBE engineering students, technical professionals, and educators dedicated to pursuing professional excellence and giving back to the community. The SEEK Program utilizes a hands-on design curriculum, with a major focus on the Engineering Design Process. Working in teams, students use their knowledge to solve problems and create products while discovering the underlying math and science principles involved in these processes. Each week, the students will take on a new project, culminating with a presentation, design competition, and physical competitions that all parents are encouraged to attend.

**Program Details:**

- The camp is **FREE!**
- Program open to 3<sup>rd</sup>-5<sup>th</sup> grade students
- 100% virtual program
- Programs will be offered June - August
- Each program will last a total of 3 weeks
- Virtual programs will require students to be available 10 AM - 11 AM or 1 PM - 2 PM (EST), Monday through Friday
- Participants must be available all 3 weeks of the program

For more information and to register please visit: <https://seeknsbe.smapply.io/>.

**NSBE SEEK is also offering a similar camp for middle school girls: [Student Applicants - Middle School \(Girls and Gender Expansive Youth Only\) - 2021 SEEK REGISTRATION PORTAL \(smapply.io\)](#)**

Still have questions? Additional information and FAQs can be found at <https://seek.nsbe.org/>.

Thank you!
